

SUMMARY

State	Number Of WARN Notices	Number of TAA Applications	Workers Affected In WARN Notices	Workers Affected In TAA Applications
Florida	310	41	32,504	2,218
Michigan	138	92	22,303	13,154
Pennsylvania	203	177	25,474	10,207
Wisconsin	180	44	22,912	4,922

[American Bridge analysis of nationwide WARN notice filings and DOL TAA applications, 1/20/19 - 6/6/19]

Nationwide, 649,876 Employees Have Been Notified Of Plant Closings and Layoffs between Jan 20, 2017 and June 6th 2019. [American Bridge analysis of nationwide WARN notice filings, 6/6/19]

Job Loss Analysis Using The Workers Adjustment and Retraining Notification Act

President Trump focuses on piecemeal “job creation” efforts – almost always job creation he had nothing to do with – to highlight in tweets and use as soundbites at his campaign rallies. But for every job Trump dishonestly claims to "save" or "create," he is leaving behind American workers who are across the country being laid off and losing their jobs to outsourcing – jobs Trump did nothing to protect or to keep in the U.S.

The goal of this project is to provide data on the forgotten American workers who continue to lose their jobs to plant closings, mass layoffs, and outsourcing. This information was gathered through an analysis of state-level WARN websites, which is current as of June 5, 2019. Some of these layoffs may be temporary, while many others are permanent – each is an individual complex case.

[The Worker Adjustment and Retraining Notification Act](#) offers protection to workers, their families, and communities by requiring employers to provide notice 60 days in advance of covered plant closings and covered mass layoffs. An employer must give notice if an employment site will be shut down, and the shutdown will result in an employment loss for 50 or more employees during any 30-day period. An employer must also give notice if there is to be a mass layoff which does not result from plant closing, but which will result in an employment loss during any 30-day period for 500 or more employees, or for 50- 499 employees if they make up at least 33% of the employer’s active workforce.

TRADE ADJUSTMENT ASSISTANCE

This information was gathered from the [U.S. Department of Labor website](#). The [Trade Adjustment Assistance Program](#) is a federal entitlement program that assists U.S. workers who have lost or may lose their jobs as a result of foreign trade. Upon receiving a petition, the Department of Labor initiates an investigation to determine whether the circumstances of the layoff meet the group eligibility criteria established by the Trade Act of 1974. These circumstances may include increased imports or a shift in operations to certain countries. After the investigation, DOL determines group eligibility to apply for TAA benefits and services. As of June 5, 2019, highlighted petitions have been certified meaning those impacted are eligible to apply for benefits and services. The rest are being investigated with their ultimate status not yet determined.
